### **3 The Art of Improvisation within a group**

Build confidence as you take the lead, and become a stronger follower, using formations ideas with organic cues for different songs and stylings, changing leaders, listening to the music, and finding the "one" count! For more advanced dancers--some tribal experience necessary

### **4 Mesmerizing Slow moves**

Slow it down, listen to your body and feeling the music, take your time while adding slower moves and accents, pay attention to counting, possibly incorporating level changes and some floor work (bring kneepads).
